

SUZUKI-Motorräder, Rahmen- / Fahrgestell- / Motornummern

Die folgende Liste dient zur Bestimmung des korrekten Modelljahres vieler Suzuki-Modelle. Anhand der Rahmen- bzw. Fahrgestellnummer können auch Ersatzteile bestellt werden. Sie wurde aus verschiedenen, teilweise widersprüchlichen Quellen zusammengestellt, ist keine Original-Suzuki-Liste und erhebt daher keinen Anspruch auf Richtigkeit oder Vollständigkeit. Fehler oder Ergänzungen können an webmaster@gs-classic.de gemeldet werden.

Die Rahmennummern sind vom Werk nach verschiedenen Systemen bestimmt worden:

WMI Typbezeichnung Zähler

Frühe Rahmennummern ... - 1 0 0 0 1
hatten nur einen fünfstelligen Zähler und keine Typbezeichnung.

Ab ca. 1975... G T 2 5 0 2 - 1 0 0 0 0 1
wurde dem Zähler die Typbezeichnung vorangestellt, die meist der Verkaufsbezeichnung entsprach.

Ab ca. 1979... J S 1 - S A 1 1 A _ D _ - 1 0 0 0 0 1
wurde ein Schlüssel für die Typbezeichnung verwendet (siehe unten), der sich am amerikanischen Vehicle Identification Number (VIN) orientiert. Teilweise ist der "World Manufacturer Identifier" (z.B. J = Japan, S = Suzuki, 1 = Motorrad) angegeben. Bei einigen Modellen wurde die 9 & 11 Stelle der Typbezeichnung am Datum der Herstellung festgelegt.

Ab ca. 1998... J S 1 - A N 1 2 1 1 0 0 - 1 0 0 0 0 1
wurde auf einen neuen Typschlüssel umgestellt.

Typbezeichnung ab ca. 1979
